

Planning Qwenta developments

Development for Qwenta is managed via Kanban board. Each developer is assigned Jira on the board. Items are moving through following statuses:

- To Do
- Analysis
- In Progress
- In UAT
- Done

UAT stage is assumed item is:

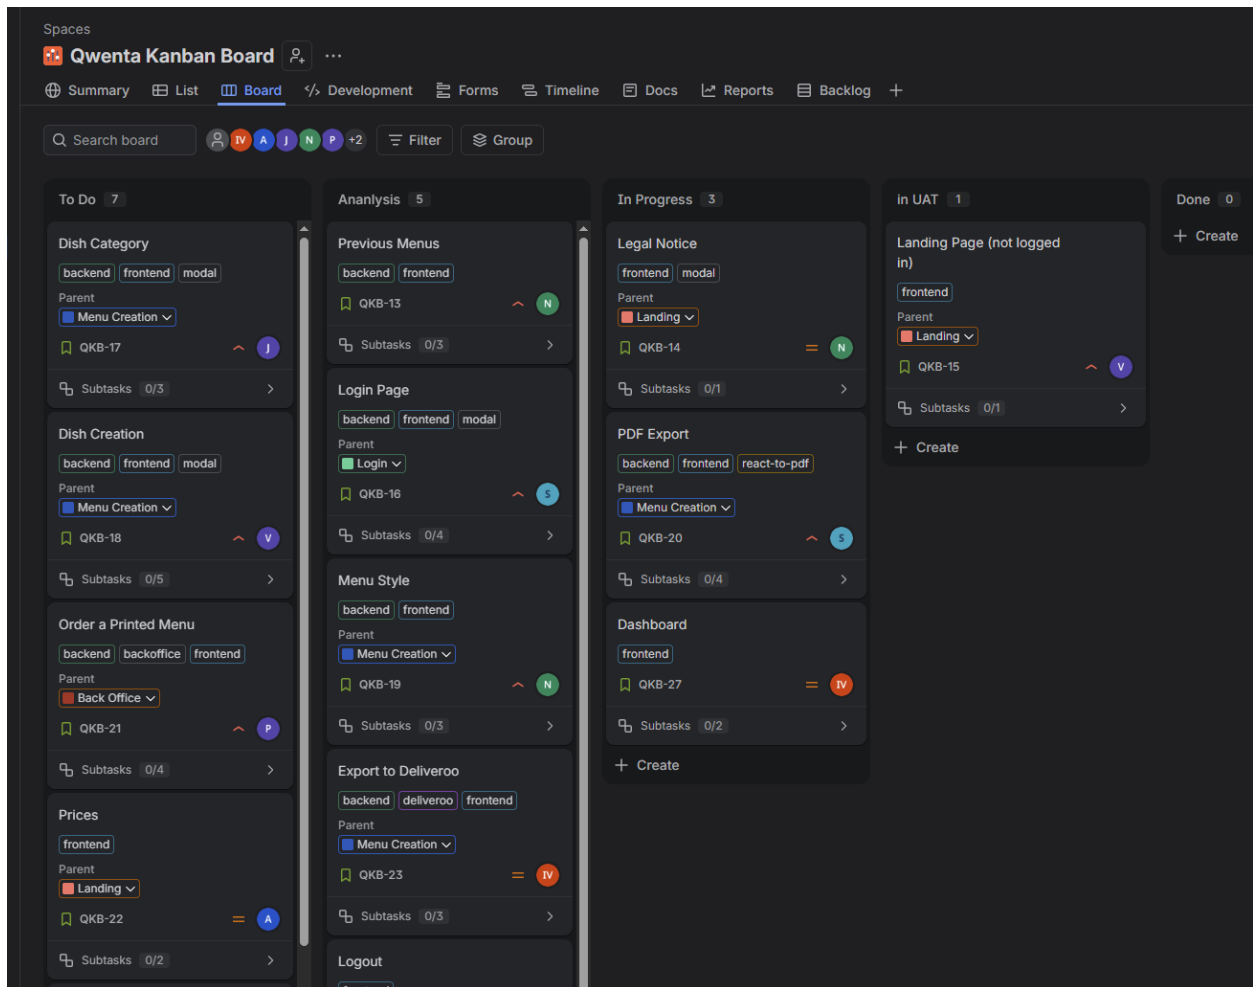

- unit tested
- approved via PR(s)
- merged to master branch
- deployed to UAT via CI/CD pipeline.

Each statuses is created Jiras with different priorities.

Link to Qwenta Kanban board:

<https://igorvish.atlassian.net/jira/software/projects/QKB/boards/1?filter=&groupBy=none&selectedIssue=QKB-18>

Each Jira has its own Epic. Each Epic is assigned its own color. Each Jira is assigned to a developer. Also, each Epic is also assigned. Each Jira has sub-tasks outlined what needs to be done.

Each Jira has details with short description, definition of done, screenshots and linked Jiras. Also, it is assigned priority and estimate in weeks.

Description

- Restaurateurs with an account need the ability to log in.
- Users need the ability to create an account automatically using their email address.

Success

- [] This window opens as a modal.
- [] Users can enter their email address.
- [] Whether logged in or not, an authentication email is sent to users to confirm their email address and access the application for the first time.
- [] A "Need help?" link makes it possible to email our teams directly.

Epic view:

The screenshot shows the 'Epic view' for item QKB-3. The main section is titled 'Landing' and includes a description 'Landing for Qwenta Menu Maker'. Below this is an 'Attachments' section with one file: 'image-20260806-084704.png' added on 'Aug 06, 2026' with a size of '1 KB'. The 'Child work items' section shows a progress bar at '0% Done' and a table of tasks:

Work	Priority	As...	Status
QKB-14 Legal Notice	Med...	N	In Progress
QKB-15 Landing Page (not logged in)	High	V	In UAT

The right sidebar contains a 'Details' panel with fields for Assignee (Igor Vish), Labels (None), Parent (None), Team (None), Due date (None), Start date (None), and Reporter (Igor Vish). Below this is a 'Development' section with options to connect tools, open in coding tool, create a branch, and create a commit.

This screenshot shows the same Epic view for QKB-3 but with more content visible. The 'Child work items' table now includes a third item:

Work	Priority	As...	Status
QKB-14 Legal Notice	Med...	N	In Progress
QKB-15 Landing Page (not logged in)	High	V	In UAT
QKB-22 Prices	Med...	A	To Do

Below the table is a 'Linked work items' section with an 'Add linked work item' button. The 'Activity' section is active, showing a comment input field with buttons for 'Suggest a reply...', 'Status update...', and 'Thanks...'. The right sidebar now includes an 'Automation' section showing 'Recent rule runs' with a 'Refresh' button and a 'Configure' button.
